### **Calypto Names Maojet Exclusive Distributor in Taiwan** *Extends Calypto's Reach in the Global Electronics Market*

**SANTA CLARA, CALIF. — May 14, 2008** — Calypto™ Design Systems Inc., the leader in sequential analysis technology, has named Maojet Technology Corporation of Taiwan its exclusive distributor in that region.

Maojet, headquartered in Taipei with branch offices in Hsin-Chu City, will provide sales and support for Calypto's PowerPro™ CG (clock gating) and SLEC™ (Sequential Logic Equivalence Checker) product lines.

“Our partnership with Maojet Technology Corporation extends our market reach to the growing Taiwanese design community,” says Doug Aitelli, Calypto's vice president of worldwide sales. “The Asia/Pacific region represents an important expansion opportunity for Calypto and Maojet has an excellent reputation within it.”

Calypto's advanced register transfer level (RTL) power optimization and functional verification products, based on unique sequential analysis technology, dramatically reduce power and improve design quality. PowerPro CG is an automated RTL power optimization product that reduces power by up to 60%. Calypto's SLEC is

the industry's only proven sequential equivalence checker capable of verifying designs despite differences in timing, state and levels of abstraction.

“We see many opportunities for Calypto's unique PowerPro CG and SLEC products in Taiwan,” adds Ted Tsai, Maojet's general manager. “We are looking forward to a long and mutually beneficial relationship.”
